Sand-sculpting activities!

SANDAE BEACH

Sandae Sand Art, headed up by DB resident Gary Melsom, continues to evolve with exciting new sand-sculpting activities.

Their newly launched team building programme – Sandae Golf! – challenges groups to design and construct their own miniature golf courses entirely from sand. Teams work together to create playable holes complete with obstacles and bunkers, then enjoy a friendly tournament on their handcrafted course. To book a corporate retreat, visit www.sandae.online.
